

## EXCURSION TO HERCULANEUM

This is a half day excursion by bus with tourist guide.

Departure from Naples on the highway, we'll arrive in Herculaneum after about 10 km. Buried from the volcanic materials erupted from the Vesuvius in 79 a.c., this city was almost on the sea shore. Its position and limited extension give to Herculaneum elegance and big intimacy that makes it different from Pompeii.

To get to the excavations we'll walk along a panoramic avenue separated from the modern city. We'll see the Foro, the Decumani, the Casa a Graticcio, the Casa dei Cervi, the gorgeous thermal baths and a typical bakery. Very particular and specific of this city is the phenomenon of the charred woods..

Return to Naples on the same highway.
